Comments about coffee shop - there
is such a place just next to the
US Embassy and I have seen him there
and also have seen him carrying boxes w/ posters
to the Embassy.

The view describing ~~him with a short~~
fat man arguing with [REDACTED]

SG1A

I got an impression that this person
is the new RSO that said he was
going to clean out the Embassy and
[REDACTED] was his first person he
was going to work on.

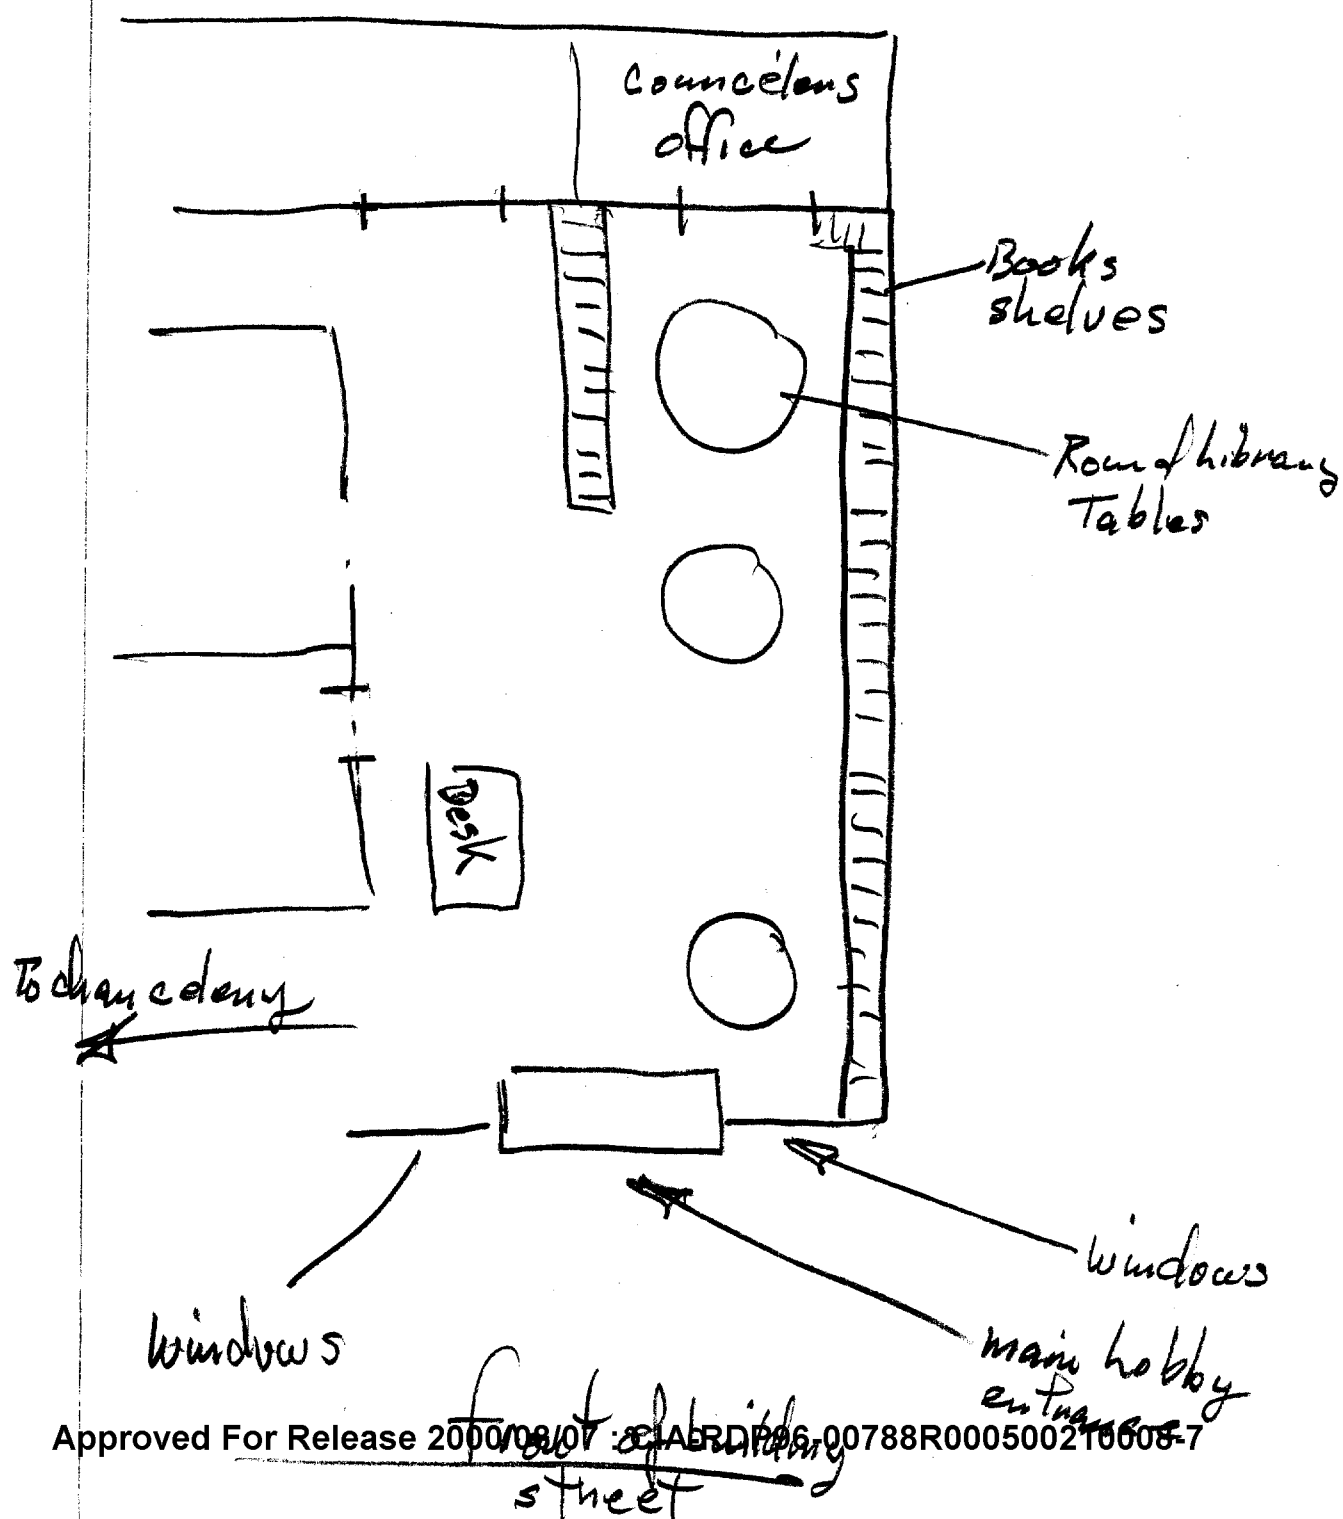

SG1A

The RSO is about 50ish, about 5'6",
wears large dark rimmed glasses, but
is bald, and doesn't smoke.

The discription by all viewers that this person is very helpful to all is true. He is willing to do anything for anyone.

Viewer #08 describes a very good over view of the Embassy library almost as it is except there are no desks.
